

# Érika Dal Magro

---

FULL STACK DEVELOPER, LATAM - BRAZIL

+55 (54) 991694585 | [erika.dmagro@gmail.com](mailto:erika.dmagro@gmail.com) | <https://github.com/erika-dalmagro> | [linkedin.com/in/erika-dal-magro](https://www.linkedin.com/in/erika-dal-magro)

## About Me

Full Stack Developer with 6 years of experience, holding a degree in Systems Analysis and Development and a postgraduate degree in Digital Security, Governance, and Data Management. I have solid experience developing complete systems, from front-end to back-end, using technologies such as JavaScript and PHP with frameworks like Vue.js, React, and Laravel. My focus is on writing clean, well-structured code and utilizing version control.

**Backend:** PHP, Laravel, Go, Node.js, MySQL, PostgreSQL

**Frontend:** TypeScript, JavaScript, React, Next, Vue.js, Nuxt, CSS

**Infrastructure:** Git, Docker, REST APIs, CI/CD

**Personal:** Product-oriented mindset, adaptability, communication, teamwork

**Languages:** Portuguese (native), English (fluent)

## Work Experience

### JAN 2023- MAR 2025 | Sagui AI - Full Stack Developer

- Worked on the development of a platform focused on automation and digital marketing.
- Developed modules and integrated AI technologies to generate marketing materials like websites, blog posts, social media content, and landing pages.
- Contributed to migrating the codebase to Vue 3 and Nuxt, adopting best practices and incorporating tests to ensure quality.
- Implemented reusable, scalable, and accessible components to enhance user experience and system maintainability.

*Role ended due to company restructuring and layoffs.*

### FEB 2022 - JAN 2023 | Mobile Mind - Full Stack Developer

- Worked on updating the company's website by migrating it to React, resulting in an improved user experience.
- Developed and implemented a CRM system to enhance the management and tracking of customer interactions.
- Identified and resolved SQL bottlenecks, improving website performance and stability.
- Worked on the development of a service provider search platform (Busca Zum) using Golang and React.

### FEB 2021 - JUL 2021 | Tecnosistemas/Multi 24h - Web Developer Intern

- Reviewed and updated legacy system functionalities, improving efficiency and usability.
- Collaborated with the development team to design, test, and implement a billing module on the company's website.

### JAN 2018 - DEC 2018 | Brazilian Agricultural Research Corporation (EMBRAPA) - Web Developer Intern

- Modernized the company's old intranet system, implementing improvements that optimized internal processes.
- Developed the system's documentation and user guides, as no documentation existed previously.
- Supported the company's team in adapting to new features by providing training and guidance.

## Education

### FEB 2024 - MAR 2025 | Pontifical Catholic University of Rio Grande do Sul (PUCRS)

- Postgraduate degree in Digital Security, Governance, and Data Management

### JAN 2020 - DEC 2023 | Federal Institute of Rio Grande do Sul (IFRS)

- Degree in Systems Analysis and Development

### FEB 2016 - DEC 2018 | Federal Institute of Rio Grande do Sul (IFRS)

- High School Diploma with Technical Course in Web Development

## Extension Projects

### DEC 2020 - JUN 2021 | OfMakers: Teaching Computer Science and Raspberry Pi

- Taught basic computer science and programming concepts to elementary school students using Raspberry Pi.
- Planned and conducted hands-on activities and lessons.

### MAY 2016 - NOV 2016 | My Virtual School - Distance Learning Course for Teachers

- Developed and delivered online courses and training materials to equip teachers with tools for effective distance learning.
